

# Worldwide All Souls Festival 2019

*Caring for our ancestors, relieving suffering,  
spreading the benefits of the Taoist teachings*

Saturday 10 August

---

This year, in addition to chanting at our temples in the Toronto area, Fung Loy Kok will celebrate All Souls Festival at locations around the world by making offerings to the souls of the deceased and chanting sutras. Everyone is welcome to participate.

At every location, the focus will be on folding and then burning paper money as a traditional offering to the souls. There will also be chanting for their benefit, with the intention of bringing harmony and reconciliation to the relationship between the living and the deceased.

Chanters who have Confucian robes should wear them, but those without robes are also welcome. Chanters should also observe a vegetarian diet from midnight on the day of chanting.

---

## **European Centre, Colchester**
